DOCKET FILE COPY ORIGINAL

Dear Mr. Caton:

DOCKET FILE COPY ORIGINAL

Re: CC Docket No. 94-54 - Equal Access and Interconnection Obligations Pertaining to Commercial Mobile Radio Services; GN Docket No. 93-252 - Implementation of Sections 3(n) and 332 of the Communications Act; GN Docket 90-314 / Personal Communications Services

Yesterday, Lyndon R. Daniels, President, Pacific Bell Mobile Services, Jim Tuthill, Senior Attorney of Pacific Bell, and I met with Ralph A. Haller, Deputy Bureau Chief, John Cimko Jr., Chief, Policy Division, David Furth, Deputy Chief, Commercial Radio Division, Myron Peck, Deputy Chief, Enforcement Division and Nancy Boocker and Jay Markley of the Wireless Telecommunications Bureau, with Robert M. Pepper, Chief, Donald H. Gips, Deputy Chief, and Evan Kwerel, Amy Lesch, Gregory Rosston, and Andrew Sinwell of the Office of Plans and Policy, with Rudolfo M. Baca, Legal Advisor to Commissioner James H. Quello and with James R. Coltharp, Special Advisor to Commissioner Andrew C. Barrett, to discuss issues raised in CC Docket No. 94-54, including roaming, which are outlined in the attached summary. We also discussed issues relating to pre-grant construction with Ralph Haller and David Furth, and non-structural safeguards with Myron Peck. Please associate this material with the above-referenced proceeding.

We are submitting two copies of this notice in accordance with Section 1.1206(a)(1) of the Commission's Rules.

Bringing Mobility to The Mass Market

L. R. Daniels

President, Pacific Bell Mobile Services

Industry Evolution For National Roaming Service May Not Be In The Public Interest

- Today, national roaming is only available on Cellular Analog networks
- Large cellular companies plan to combine PCS and Cellular spectrum to create “national networks”
- One potential PCS provider is also pursuing a “national network”
- At least three different PCS technologies - TDMA, CDMA, and GSM - are likely to be deployed
- Customers of independent PCS carriers (i.e.; Regional and Designated Entities) may be unable to access these national networks for technological or competitive reasons

A Broad Roaming Policy Should Be Adopted

- **Cooperative agreements among CMRS providers for roaming should be expected by the FCC whenever technically feasible**
- **To promote competition, the FCC should require that Cellular Carriers provide access to national analog roaming services on a fair and nondiscriminatory basis**

Interconnection

- **Wait to see market evolution**
- **Mandatory interconnection may increase operators' expenses**
- **Multiple connections between CMRS providers could reduce service quality**

Reseller Switch Unfair

- **Reseller switch unnecessary in highly competitive market**
- **MTA 30 MHz PCS providers are paying for spectrum**
- **Alters economics and is unfair to bidders**
